Feedback on Ground Water Survey conducted at Shining Caves Resort Anaikatti Palakkad District

This is to Inform that Mr A.Sivakumar and Jaimon Sunny Hydrogeologists conducted study at Anaikatti Caves Resort. The ground water survey was carried out in systematic manner by them using State of Art Geophysical Survey Equipments and the interpreted results matched with the borewell drilling results. The survey has helped our resort meet its water requirement.

We have no hesitation in recommending the team for ground water targeting in Kerala and other areas.
